EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 3. The bicycle brake of claim 1 wherein the at least one wedge of each pair is manually removable from the actuation means.

2. Claim 3 is amended to remove the positive recitation of the user's fingers. Claims can not have body parts as a limitation. The examiner also interprets the term "manually removable" by itself to connote the same concept as without tools.

3. The following is an examiner's statement of reasons for allowance: U.S. Patent nos. 3,989,124 and 4,061,206 disclose wedge actuated bicycle brakes. They lack a teaching of the use of rods used in combination with the wedges. The combination of the wedge pair and the rods defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
